List #1 Essential Diabetes Drug Summary List

This list is no longer provided.

List #2 Essential Diabetes Drug List

This list represents a compilation of essential diabetic drugs that may be dispensed in Nevada. It is a detailed list of National Drug Codes (NDCs) that includes varying drug packaging formulations. This essential list does not include any drugs used to treat co-morbidities often present in individuals with diabetes.

List #3 Essential Diabetes Drug List (with Significant Price Increase)

This includes the drugs in List #2 that experienced a significant price increase. For diabetes medications this is defined as an increase equal to or greater than the previous year Consumer Price Index, Medical Care Component or twice the increase during previous two years.

List #4 Over \$40 Drug List (with Significant Price Increase)

This represents any other prescription, out-patient drug that experienced a significant price increase *and* cost more than \$40 WAC for a course of therapy (or a 30- day supply for chronic medications). For this list a significant price increase is defined as equal to or greater than 10% in previous year or 20% in previous two years.
