Department of Human Services
Director's Office, Grants Management Unit
SFY25 Family Resource Centers Report

This Grants Management Unit (GMU) State Fiscal Year (SFY) 2025 Family Resource Centers Report is submitted in accordance with Nevada Revised Statutes (NRS) [430A.200](#). This statute requires an annual written report to the Interim Finance Committee concerning the expenditure during the preceding fiscal year of all money received by the Director for carrying out the provisions of this chapter.

Family Resource Centers

Family Resource Centers (FRCs) were created by the Nevada Legislature in 1995 (see [NRS 430A](#)) as facilities within at-risk communities where families could obtain an assessment of their eligibility for social services and receive direct services or referrals to other social services agencies to meet the needs of their families. For 30 years, FRCs of Nevada have provided resources, information, referrals, and case management services in collaboration with local community partners and organizations to help individuals and families with access to needed services and support. FRCs help families solve problems by providing skills and tools to strengthen family systems. These centers are a vital part of the communities they serve and are trusted by people who might not access services any other way.

Distribution of Funds

In SFY25, 18 FRCs were allocated \$1,458,253 from the Fund for a Healthy Nevada, which is comprised of tobacco settlement funds. The FRCs throughout Nevada expended \$1,429,426 of the SFY25 funds. Funding for FRCs is calculated on a formula based on total population, population under 18 years of age, and population in poverty for each service area in Nevada.

Family Resource Centers SFY25 Awarded and Expended Amounts

Agency Name	Awarded	Expended
Cappalappa Family Resource Center	\$17,970	\$17,970

Washoe County School District FRC	\$181,373	\$172,010
White Pine County Social Services FRC	\$24,020	\$24,020

Accountability

Each FRC is required to submit a monthly report containing datapoints relevant to the goals of the funding, such as the number of unduplicated individuals served, the number of case files opened, services provided, and number of referrals made to other service providers.

Also required are quarterly reports, which focus on program accomplishments, staffing, staff training received, challenges, technical assistance requested, community outreach events hosted, in-kind and cash donations received, and anecdotal stories that demonstrate the impact of the program. Through review of monthly and quarterly reports, video calls, telephone calls, and email correspondence, GMU staff worked closely with the FRCs in SFY25 to ensure clients accessing services were provided with appropriate referrals and support to help them achieve their goals.

Collaborative Efforts and Program Performance Overview

Throughout Nevada, FRCs collaborate with the Division of Child and Family Services (DCFS), the Division of Social Services (DSS), the Aging and Disability Services Division (ADSD), the Division of Public and Behavioral Health (DPBH), food pantries, local school districts, and other community and state agencies.

In SFY25, FRC programs across Nevada served a total of 26,973 unduplicated individuals with referrals, resources, and support to meet their immediate needs. A total of 31,033 new case files were opened in SFY25. If social services cannot be provided directly, FRCs provide referrals to agencies and organizations where the service is provided; a total of 13,145 referrals were provided by FRCs in SFY25.

Family Resource Centers SFY25 Clients Served

FRC Client Type	Unduplicated Number Served
Children	9,306
Adults	15,105
